

### **On Demand Pharmaceuticals, Inc.: Senior Analyst**

On Demand Pharmaceuticals (ODP) is changing the way we make and distribute medicines—by providing them to anyone, anywhere, anytime. ODP is creating innovative manufacturing platforms to enable our vision to produce critical medicines at the point of care and to secure the pharmaceuticals supply chain. As a young organization, ODP offers an exciting opportunity for passionate scientists and engineers to make a difference in the world while developing career paths for advancement.

ODP is seeking an Senior Analyst to support the development of our next generation medicine manufacturing platforms and analytical methods. Our manufacturing platform is comprised of modules that can chemically synthesize pharmaceutical starting materials and products. These modules are miniaturized and mobile and can be deployed anywhere in the world to strengthen pharmaceutical supply chain and enable local production of medicines. ODP has an established R&D analytical lab which is responsible for developing and/or assessing compendial and non-compendial analytical methods. These methods will be transferred to the QC lab for validation and/or verification as per ICH and USP guidelines.

#### **Responsibilities:**

- Conduct routine analysis of raw materials, intermediates, and final pharmaceutical products
- Assist in supporting the day-to-day laboratory operations
- Generate sound analytical data and produce the associated technical reports
- Conduct validation of new methods to be introduced to the manufacturing facility

#### **Minimum Hiring Standards:**

- B.S in Chemistry, Chemical Engineering, Pharmaceutical Sciences or related field; or training and equivalent work experience at a level that equates to B.S. degree
- Ability to operate and maintain instrumentation
- Ability to write instrumental protocols and instructions
- Experience in modern analytical techniques including HPLC, GC, Mass Spectroscopy etc.
- Demonstrate excellent attention to detail, ability to learn instrumental techniques, and maintain good record keeping
- Experience working under GXP
- Ability to work collaboratively with multi-disciplinary cross-functional research teams
- Energy and passion to thrive in a start-up environment and to deliver on the mission of On Demand Pharmaceuticals

#### **Preferred Qualifications:**

- Individuals with > 18 months experience and training preferred.
- Candidates with experience in pharmaceuticals
